

Opole, 11 th June, 2021

Dear Ms. Yvette Broch,

we have noticed your decision about resigning from taking part in Olympics in Tokyo with appreciation and admiration. We really appreciate and understand your decision not to succumb to pressure from authorities to take an experimental and potentially dangerous vaccination.

We realise that taking part in Olympics is the pinnacle of sporting career and it is the greatest honour the athlete can get. In order to achieve championship level, years of huge effort, hard work and sacrifices are needed. That is why we hugely admire your decision.

You stood up for truth and freedom jeopardizing your amazing career. For us you are the great example of courage and strength of will.

We are convinced that millions of your compatriots and also sports fans from different countries, including Poland, are impressed by your attitude.

We deeply hope that your sacrifice will not be in vain. The truth will prevail and you will have lots of success in the future.

Kind Regards,

Group Free Poland, Opole
